

## Skydive East Tennessee

### Accelerated Freefall Course

We're thrilled about your interest in becoming a licensed skydiver and becoming part of an exciting and vibrant community. The **Accelerated Free Fall (AFF) Course** is a fast-track program designed to teach you to safely skydive from the First Jump Course (FJC) to becoming a licensed skydiver at 25 jumps.

This course is your gateway to the exhilarating world of skydiving and no prior skydiving experience is required. That's right, **you do not have to do a tandem skydive before starting AFF**, however making a tandem jump first is an option that many people choose and **tandem skydives do count towards the 25 jumps needed** to earn your A-license.

We follow the USAP curriculum: <https://www.uspa.org/skydiveschool/4>

### How it works

We hold the first jump courses on scheduled Friday evenings starting at 5pm and lasting around 4-5 hours. You will make your first skydive, **Category A**, the following morning weather permitting. Some people may make multiple skydives on their first day depending on fatigue, weather and instructor availability. You will then progress through the student levels A-H and complete all the ground, freefall and canopy requirements to earn your A-license. A motivated and consistent skydiver typically completes their A-License in 1-2 months. We also offer accelerated A-license courses designed to be completed in about 10 days upon special request. **If you weigh more than 200 lbs or less than 100 lbs, please contact us before signing up.**

### Cost

The pay as you go cost for obtaining your A-License is detailed in the table on the following page. It will typically cost a student about \$3750 to complete their training if very few levels need to be repeated. We also offer discounts for students who want to pay the cost for their A-license up front.

<b>A-License Package</b> including FJC, all instructional jumps Cat A-H, additional jumps to reach 25 and check dive. Includes 1 repeat of a level A-E. Additional repeats are an additional cost.	\$3250
<b>Accelerated A-License Package</b> designed to be completed in approximately 10 days, weather permitting, includes all required classes and jumps. Priority manifesting, sending the plane with less than the minimum jumpers, and operating of the skydiving center during extended hours with pre-scheduled instructors and coaches. This is an intense program only suitable for those students that are physically and mentally fit and prepared to study in the evenings and come to the skydiving center ready to learn, jump and repeat multiple times a day. These packages include 2-repeats A-E at no additional cost. Additional levels repeated are an additional cost.	\$5500 (1 student)  \$4500 (2 students)

Student Skydiver Progression		Cost
First Jump Course		\$125
